INTRO

Are you interested in fast, dynamic but still precise shooting for long distances?

Are you a shooter who needs more than prone position and softly pulling the trigger?

Do you want to know the fundamentals of marksmanship, basic and advanced principles of precision rifle shooting from unstable and non-standard positions or „stuff“ like MOA or MRAD, first focal plane or second focal plane?

And finally – do you want to enjoy shooting in a way you´ve probably never done before?

If you´ve said at least once „YES“, this could be just right for you!

Welcome to the

LONG RANGE SEMINAR 2017

v. 2017-08-23

Note: It is not a competition! It is a 3 day seminar to practice long range dynamic shooting ☺

LONG RANGE SEMINAR 2017

Organiser	GTac – Dynamic Precision Rifle in cooperation with HEDE tactical parts - Ihr Partner für Waffen & Zubehör	
Contact person	Czech Republic	Germany
	Martin ŠLAICHRT +420739667326 gtac@gtac.cz	HEDE tactical parts +49 (0) 9651-917911 info@hedetactical.de
Place	VTÚ Bzenec shooting range, 48°57'23.8"N 17°16'45.7"E, South Moravia, the Czech Republic	
Date	09th – 11th October 2017 / 3 days	
Registration	via contacts on www.GTAc.cz or www.hedetac.de	
Registration dead line	24th September 2017

¹Only those participants who have registered using the registration form and approved by organiser will be allowed to take part in the seminar. Note that it is not possible to register on the ground.

²Shooter can use everything which can be determined as usual equipment for this kind of shooting (tactical, dynamic sport precision shooting).

SCHEDULE

DAY 0 Sunday

05.00 p.m. - and later, arrivals, registration check

DAY 1 Monday

(min ca. 50 rounds)

07.00 a.m. - official welcome by the event organiser, safety briefing

08.00 a.m. - theory class

11.30 a.m. - lunch time

01.00 p.m. - zeroing 50 / 100m (50m - fundamentals stages)

04.00 p.m. - dry fire practice (fundamentals, drills)

06.00 p.m. - end of the day

DAY 2 Tuesday

(min ca. 125 rounds)

07.00 a.m. - 2 shooting programs (3 squads – 300m, 600m, 800m)

11.30 a.m. - lunch time

01.00 p.m. - 1 shooting program (3 squads – 300m, 600m, 800m)

03.00 p.m. - support program⁴ (first aid for shooters - class)

06.00 p.m. - end of the day

DAY 3 Wednesday

(min ca. 125 rounds)

07.00 a.m. - 2 shooting programs (3 squads – 300m, 600m, 800m)

11.30 a.m. - lunch time

01.00 p.m. - 1 shooting program (3 squads – 300m, 600m, 800m)

03.00 p.m. - end of seminar program

04.00 p.m. - departures

SHOOTER REQUIREMENTS

All participants must fulfil these requirements:

- slightly experienced (basic knowledges of ballistics, zeroing rifle)
- get used to their gear (not applicable for shooters who just bought their rifle, scope,...)
- ammunition must be verified to prevent failures on shooting range
- knowledge of own ballistics chart up to 300m (with 100m zero distance)
- knowledge of own muzzle velocity

SHOOTING PROGRAM

All participants will be divided to three squads (max 5 shooters per each).

During the second and third day they will attend all three ranges to practice different type of training program. Each training program will take approximately 2 hours of shooting from different positions, under the time or physical stress or for long range to verify ballistics.

RANGE 300m steel targets on 300m, 5 different obstacles to train unstable positions and fundamentals

RANGE 600m steel targets on different directions and ranges (100-575m) to train dynamic basics, stress fire, rapid fire and fundamentals

RANGE 800m steel targets, train area to build ballistics charts from 600m to 800m

! SHOOTING PROGRAM WILL BE PERFORMED IN ALL WEATHER CONDITIONS !

4SUPPORT PROGRAM - Medical equipment and First aid on shooting range

Part of this seminar will be dedicated to presentation of medical equipment need to secure and to give medical treatment to shooter personnel on the shooting range in case of injury caused during training. All participants will practically try medical methods how to secure shot wounds until emergency arrives.

There is also the opportunity to buy the „Personnel First Aid Kit“ with the same content they will use for practice.

CATERING

Breakfast and dinner is on shooter´s own responsibility.

Lunch (DAY 1 – 3) is ensured by organiser.

Shooters can buy basic food every day in near villages.

Every day afternoon there will be the possibility to grill some meal on the range.

! WARNING !

The possession and use of alcohol and illegal drugs are strictly prohibited on the shooting range during the seminar!

Drug testing shall be conducted by the Czech Police Department which can come to the seminar. Specifically, individuals will be tested for the presence of controlled substances and such individuals **MUST TEST NEGATIVE** for the presence of controlled substances.

SHOOTING RANGE VTÚ BZENEC

This shooting range belongs to the Czech Army so it means there is special operation mode but with many opportunities of sport / tactical precision shooting.

It is located at 48°57'23.8"N 17°16'45.7"E west of the main road between Bzenec and Strážnice town in the South Moravia.

It consists of:

- RANGE 50m** combat field („U”shaped)
- RANGE 300m** field (paper targets, distance changed by moving fireline)
- RANGE 600m** field (steel and paper targets, different ranges and directions)
- RANGE 800m** corridor (steel targets, wide aprox. 8m)

LODGING

On shooter´s own responsibility in own tents, cars, under the sky in own sleeping bag or in nearby motels or villages (aprox. 5km from shooting range).

Lodging outside the shooting range (motels, hotels, ...) is not provided by organiser. But it is possible to give some contact for lodging in nearby village Bzenec (aprox. EUR 20 / night)

Shooting range facilities include toilet, shower and a lot of space for tents or cars/vans.

GTac - Dynamic Precision Rifle

Martin ŠLAICHT „Grinch“

- born in 1983
- since 2003 „behind the rifle“, serve in the Czech Air Force (at the present time holding a position of a Mi-24/35 helicopter pilot at the 22nd AFB Namest nad Oslavou)
- STANAG 6001 SLP3 in English
- S.E.R.E level C (of course lvl A, B 😊)
- many other Air Force or Army officer courses, but they are not important
- started with air-rifles, passed through rimfire rifles and stuck with „big bore“ rifles
- more than 10 years of publishing shooting related articles and websites
- owned or tested more than 30 semi-automatic or bolt-action rifles and more than 20 riflescopes (Vortex, Deon March, Nightforce, Sightron, Kahles, Schmidt&Bender, ...)
- few years of organizing Tactical-rimfire competitions
- „first official GTac class“ in 2014
- till now more than 20 seminars of two levels (INTRO and ADVANCED) and more than one hundred of satisfied shooters

„I do the seminars by my own way. I care about personal approach based on my long-standing experience working with people.“

„The long range precision shooting is about information! Get as much as possible, put them on a pile, pick one by one and take what is the best for you.“

„I don´t tell you this is the best rifle, this is the best scope, technique... I will ask you what your background is and then I can advice you what are the best OPTIONS for you and for your background.“

„I don´t like to work with shooters in a way REGISTER-PAY-COME-LEAVE-FORGET. Everyone who came has the opportunity to join our group of shooters, friends, and enjoy our trainings or other possibilities to meet and practice during the year.“

„A lot of shooters attend the classes on a regular basis because they know what I can offer and how high level it has. And of course we became really good friends.“

„I don´t like to call me an instructor because it´s also me who will be learning something new for my entire life. I hold my classes to show my approaches in theory, techniques, hardware setup and to share our common experience.“

WAIVER OF LIABILITY

(it will be signed during the registration check and it is mandatory for seminar attendance)

I hereby declare to the event organiser Martin ŠLAICHRT / GTac – Dynamic Precision Rifle that I have the required shooting expertise to be able to correctly assess all the associated risks and dangers.

I declare that I am taking part in this event voluntarily and that I am aware of the fact that participation in a competition is associated with additional risks and dangers. By participating in this event, I therefore accept all the associated risks incurred before, during and after the event.

These risks include for example, bodily injury, pain, emotional stress, traumata, illness and death, whether caused by negligence on the part of the event organiser Martin ŠLAICHRT / GTac – Dynamic Precision Rifle or on the part of the property owner, defects in materials, inadequate performance or monitoring, contact with other event participants or any other obstacles on the event site, the weather or the ground conditions.

I am aware of all these risks and, by signing this waiver, I waive any right to separate instruction in this regard. Where applicable, I agree to pay any costs of my medical first aid, nursing care or other support services.

The participant shall take part in the event entirely at his own responsibility and shall assume liability under civil and criminal law for any bodily injury, damage to property or financial losses incurred by or caused by them which arise in association with the event.

The participant hereby acknowledges that the event organiser shall not be liable for any accidents or for any other unforeseen incidents before, during or after the event.

By signing this form, the participant waives the right to any and all claims to compensation vis-à-vis the event organiser, organiser, property owner or their authorised representatives, and hereby accepts full responsibility for any accidents, injuries, fatalities or damage to property, etc. which arise as a result of participation in the event.

By signing this waiver, the participant confirms that he has valid liability, health and accident insurance and that he meets the physical fitness and health requirements for participating in this event. The participant hereby also declares that he has read properly and understood the above waiver of liability and that he explicitly agrees with the content.

This waiver of liability shall be subject to Czech law with the exception of the regulations governing private international law. Any legal disputes shall be brought before the competent court in Prague or Brno, the Czech Republic.
